

S.R. 0028 Highland Park Interchange  
Reconstruction Project  
S.R. 0028, Section A56  
Allegheny County, PA

**PennDOT  
PUBLIC MEETING  
ANNOUNCEMENT**

The Pennsylvania Department of Transportation (PennDOT) in cooperation with the Federal Highway Administration (FHWA) are pleased to invite you to attend a Public Meeting being conducted to inform you about the S.R. 0028 Highland Park Interchange Reconstruction Project.

The purpose of the project is to address the existing bottleneck and congested traffic flow on S.R. 0028 (Allegheny Valley Expressway) and other operational and safety issues within the S.R. 0028 Highland Park Interchange. The project involves reconstruction of S.R. 0028, between S.R. 1003 (North Canal Street/Kittanning Pike) and the Delafield Avenue Interchange, to reestablish two travel lanes in each direction through the S.R. 0028 Highland Park Interchange and to improve acceleration and deceleration ramps. Also proposed is reconstruction of the S.R. 0028 Ramps with the Highland Park Bridge and S.R. 1001 (Freepoint Road), bridge / wall preservation work, sound barriers, and miscellaneous operational and safety improvements. A previous Public Meeting for this project was held back in December 2017. The Highland Park Bridge river crossing and the Riverfront 47 Development are not part of this project.

During the Public Meeting, the project team will be available to present final project details, construction schedule, and proposed traffic control and detour routes as well as answer any questions you might have. Pursuant to Section 106 of the National Historic Preservation Act, PennDOT is also seeking input on identification of cultural resources and the project's effect on these resources.

For more information contact:

Erik Porter, P.E., Senior Project Manager  
PennDOT, District 11-0  
45 Thoms Run Road  
Bridgeville, PA 15017
